---

May 26, 2010

Dear Peach State Member,

On April 30, 2010 there was a recall on some over-the-counter (OTC) medicines. The recalled OTC medicine is for Children and Infants. They are being recalled because some of them may not meet certain standards.

There was a meeting on May 4, 2010 to review the recall letter. The letter stated:

- Some of the products may have a higher level of an active ingredient.
- Some of the products may have inactive ingredients that may not meet testing guidelines.
- Others may have tiny pieces that do not belong.
- There is not a great possibility for serious illness or injury.
- STOP using the medicine and throw it out<sup>1</sup>.

The recall is not in response to a serious illness. But we want to prevent a serious illness. Parents and caregivers should **NOT** give these products to their children. A list of the recalled products is below.

If you have any questions please call the Member Services Department at (800) 704-1484. If you are hearing impaired call (800) 659-7487.

Sincerely

Peach State Health Plan
