

## Know **what's covered**

**Peach State Health Plan** wants you to get the care you need, when you need it. We make decisions about the care to cover based on:

- If the service is needed
- If the service works well
- If the service is right for you

We do not make choices about care based on how much it costs. We also do not reward doctors or staff for saying no to care.

If you have a question about whether a medical service is covered, our Utilization Management (UM) Department can help you. UM may look at your records and talk with your doctor.

Call us at **1-800-704-1484**. Do you speak a language other than English? We have translation services to help you.

## Your privacy is important

You share a lot of information with your doctor. Peach State Health Plan does all it can to protect your personal health information. In fact, federal law requires us to keep your records private.

You can read the full privacy notice in your member handbook or on our website. Or you can call us at **1-800-704-1484**. We can send you a paper copy.

## Checking in on vaccines

**Do you have children?** They should get a checkup every year.

Children do not need to be sick to get a checkup. A checkup is a chance for a doctor to make sure your child is healthy. The doctor will check your child's height, weight, vision, hearing and more.

The doctor will also make sure your child is up to date on immunizations. Immunizations deliver vaccines. Vaccines help protect us from illnesses such as measles, polio and even the flu.

Some states require children to have certain vaccines before they start school. You can find out more at [immunize.org/laws](https://www.immunize.org/laws).

Call Peach State Health Plan or go to [PSHP.com](https://www.PSHP.com) to learn more about the vaccines your child needs.

### Start Smart

Our Start Smart for Your Baby<sup>®</sup> program helps you focus on your health during your pregnancy. Visit [PSHP.com](https://www.PSHP.com) to learn more.

### We want to hear your concerns

We do our best to give you the healthcare you need. If you are not satisfied with the care you get, you can file an appeal or a complaint.

**Appeals:** Peach State Health Plan may decide you do not need a treatment or service. If we decide to stop or deny a service, you will receive a letter. If you disagree with the decision, you can file an appeal. This is a request to change the decision. You can file an appeal by phone, in person or in writing.

**Complaints:** Are you unhappy with care you got or how you were treated by the plan or a provider? You can file a complaint, also called a grievance.

Appeals and complaints must be sent within certain time frames. Review your member handbook or call Member Services at **1-800-704-1484** to learn more.

## What are preventive health guidelines?

Preventive care is care that helps you stay healthy. It can keep you from getting sick. It can find problems early, when they are easier to treat. It includes flu shots, well-child visits, cancer screenings and other types of care.

Preventive health guidelines help members and providers. The guidelines tell providers what tests and treatments members may need. For instance, the guidelines advise providers to check adults for high blood pressure. They say when to give tests for cancer. Guidelines can also help members make healthcare decisions.

Who creates the guidelines? Government bodies and groups such as the American Heart Association. They look at the latest studies to decide if guidelines need to change.

Health plans adopt guidelines based on the health needs of members. Plans also use guidelines to help them meet quality measures.

Peach State Health Plan regularly reviews and updates the guidelines it uses. You can learn more about our preventive health guidelines at [PSHP.com](https://www.pshp.com).

## Taking care of teens

**Is your child a teenager?** He or she will need an adolescent health check every year. Like well-child checkups, these checkups assess teens' weight and general health. But as kids get older, they also need to be checked for more adult issues. These include:

- Tobacco, alcohol and drug use
- Sexually transmitted infections
- Depression
- HIV

To see a chart showing recommended care for children and adolescents, go to [aap.org/en-us/Documents/periodicity\\_schedule.pdf](https://www.aap.org/en-us/Documents/periodicity_schedule.pdf).

## Lead screening

Lead is a metal once used in paint. In older homes, children may be exposed to lead through paint chips or dust. This can lead to learning and behavior problems. Your child's doctor should check their blood for lead.

Children should be tested for lead exposure at 12 and 24 months old. Children ages 3 through 5 must get a blood lead test if they haven't been tested at a younger age. Talk to the doctor about whether your child needs to be tested.

## How can we help you?

**Peach State Health Plan can help you in many ways.** We can help you:

- Find a doctor.
- Make health appointments.
- Get a copy of your member handbook.
- Get a ride to your appointments (for members with transportation as a covered benefit). Be sure to call 72 hours before your appointment.

You can find us online at **PSHP.com**. Our website has information about health and your health plan. We can help you get a paper copy of anything on the website.

Questions? Call Member Services at **1-800-704-1484**.
