## THE CENTERS FOR MEDICARE AND MEDICAID (CMS) RELEASE BILLING GUIDELINES FOR COVID-19 VACCINE

### GEORGIA FAMILIES MEDICAID PROGRAM BILLING GUIDE

Peach State Health Plan is closely following advancements in the prevention and treatment of COVID-19, including vaccinations. As a healthcare provider, you will play an integral role as COVID-19 vaccines become available. We want to update you on important new information about vaccine coverage.

To prepare for vaccine administration, the Centers for Medicare and Medicaid (CMS) have [published billing guidance](#) for Medicaid and Children's Health Insurance Program (CHIP) providers. Similar to other COVID-19 services, the vaccines will be offered at no cost to your patients. In addition:

- Peach State Health Plan will configure its systems to properly adjudicate COVID-19 vaccine-related claims in accordance with Georgia's coverage determinations for Medicaid beneficiaries
- Member liability will be \$0
- The Pfizer Vaccine is approved for members 16 and older
- The Moderna Vaccine is approved for members 18 and older
- Non-participating provider pre-authorization requirements will be waived
- Members enrolled in Planning for Healthy Babies receiving Family Planning benefits only are excluded. Providers should contact HRSA Provider Relief Fund (Uninsured individuals and Limited Benefit Plans) for reimbursement for vaccines administration.

The American Medical Association (AMA) has [published updates](#) to the Current Procedural Terminology (CPT®) code set that includes new vaccine-specific codes to report immunizations for the novel coronavirus (SARS-CoV-2).

In addition, effective December 17, 2020, DCH will begin reimbursing pharmacy providers through the Pharmacy Point of Sale System for the administration of COVID-19 vaccines for GA Medicaid Fee-for-Service (FFS) members.

The following codes have been published as of November 10, 2020.
