

Discontinuance of HCPCS Bundle Code 80050: Effective 10/1/2025

Ambetter from Peach State Health Plan will cover procedure codes **85003** (Comprehensive Metabolic Panel), **85025** & **85027** (Complete Blood Count), and **84443** (Thyroid Stimulating Hormone) individually and discontinue their coverage under bundled code **HCPCS 80050** beginning on 10/1/2025.

The Centers for Medicare & Medicaid Services previously removed **80050** from the Medicare Clinical Lab Fee schedule, citing an overuse of the bundled code when not all services were being performed. Ambetter Health will adopt this policy and cover the codes below only when submitted individually.

Procedure Codes Covered Individually Effective 10/1/2025	
Procedure	Procedure Codes
Comprehensive Metabolic Panel	80053
Complete Blood Count	85025, 85027
Thyroid Stimulating Hormone	84443

Submissions of **HCPCS bundled code 80050** will receive an automatic denial with explanation code **46** and treatment type **NC** after **10/1/2025**.
