

Clinical Policy: Age Limit Override (Codeine, Tramadol, Hydrocodone)

Reference Number: CP.PMN.138

Effective Date: 03.13.18 Last Review Date: 05.25

Line of Business: Commercial, HIM, Medicaid

Revision Log

See <u>Important Reminder</u> at the end of this policy for important regulatory and legal information.

Description

Prior authorization is required for the following medications in the respective age groups due to FDA labeling of these medications:

- Codeine-containing medications indicated for pain are contraindicated in pediatric patients younger than age 12 years and in patients less than 18 years to treat post-tonsillectomy and post-adenoidectomy pain;
- Tramadol-containing medications are not indicated for pain in patients younger than age 18 years (use is contraindicated in pediatric patients younger than age 12 years and in patients less than 18 years to treat post-tonsillectomy and post-adenoidectomy pain);
- Codeine- and hydrocodone-containing medications indicated for cough and cold are not indicated for use in pediatric patients younger than age 18 years.

FDA Approved Indication(s)

Codeine- and tramadol-containing medications are indicated for the management of mild to moderate pain severe enough to require an opioid analgesic and for which alternative treatments are inadequate.

Limitation(s) of use: Because of the risks of addiction, abuse, and misuse with opioids, which can occur at any dosage or duration, reserve codeine- and tramadol-containing medications for use in patients for whom alternative treatment options (e.g., non-opioid analgesics or opioid combination products):

- Have not been tolerated or are not expected to be tolerated,
- Have not provided adequate analgesia or are not expected to provide adequate analgesia.

Codeine- and hydrocodone-containing medications are indicated for relief of cough, nasal congestion, and other upper respiratory symptoms associated with allergies or cold.

Limitation(s) of use: Not indicated for pediatric patients under 18 years of age.

• Because of the risks of addiction, abuse, and misuse with opioids, even at recommended doses, reserve codeine-containing medications for use in adult patients for whom the benefits of cough suppression are expected to outweigh the risks, and in whom an adequate assessment of the etiology of the cough as been made.

Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

CLINICAL POLICY

Age Limit Override for Codeine, Tramadol, Hydrocodone

It is the policy of health plans affiliated with Centene Corporation[®] that codeine-, tramadol-, and hydrocodone-containing opioids are **medically necessary** for the following reasons:

I. Initial Approval Criteria

Please note: for HIM-Arkansas – if a member's covered prescription pain medication requires a prior authorization, then the prior authorization shall not be denied if the member has a terminal illness.

A. Pain (must meet all):

*In addition to meeting these criteria, requests for all opioids are subject to the criteria outlined in the opioid analgesic policy for the relevant line of business.

- 1. Prescribed for pain management;
- 2. Prescribed agent is FDA-approved for pain management;
- 3. Member meets one of the following (a, b, or c):
 - a. Request is for treatment associated with cancer for a State with regulations against step therapy in certain oncology settings (see Appendix D);
 - b. Failure of at least two non-opioid ancillary treatments (e.g., non-steroidal antiinflammatory drugs [NSAIDs], acetaminophen, anticonvulsants, antidepressants) at up to maximally indicated doses, unless clinically significant adverse effects are experienced or all are contraindicated;*
 - * For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
 - c. For cancer, palliative care, or sickle cell disease: prescribed by or in consultation with an oncologist, hematologist, hospice provider, or pain specialist;
- 4. Member meets one of the following (a or b):
 - a. Request is for treatment associated with cancer for a State with regulations against step therapy in certain oncology settings (see Appendix D);
 - b. Failure of at least two age-appropriate opioid analgesics (e.g., morphine, oxycodone), unless clinically significant adverse effects are experienced or all are contraindicated;*
 - * For Illinois HIM requests, the step therapy requirements above do not apply to formulary agents as of 1/1/2026 per IL HB 5395
- 5. Use is not for pain post-tonsillectomy or post-adenoidectomy;
- 6. Dose does not exceed health plan's approved quantity limit.

Approval duration:

Non-cancer pain -7 days

Cancer, sickle cell, or palliative care – 12 months

B. Cough (must meet all):

- 1. Diagnosis of cough due to viral or bacterial infection;
- 2. Prescribed agent is FDA-approved for the treatment of cough;
- 3. Failure of at least two of the following agents at up to maximally indicated doses, unless clinically significant adverse effects are experienced or all are contraindicated: dextromethorphan, benzonatate, guaifenesin;*
 - * For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395

CLINICAL POLICY

Age Limit Override for Codeine, Tramadol, Hydrocodone

- 4. Member is concurrently receiving appropriate therapy for the underlying cause of the cough (e.g., antihistamines, decongestants, bronchodilators, oral and/or inhaled corticosteroids, antibiotics);
- Dose does not exceed the FDA-approved maximum recommended dose.
 Approval duration: health plan-specific duration of approval, not to exceed 7 days

C. Other diagnoses/indications: Not applicable

II. Continued Therapy

Please note: for HIM-Arkansas – if a member's covered prescription pain medication requires a prior authorization, then the prior authorization shall not be denied if the member has a terminal illness.

A. Cancer, Sickle Cell, or Palliative Care Pain (must meet all):

- 1. Member meets one of the following (a or b):
 - a. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
 - b. Member is currently receiving medication and is enrolled in a state and product with continuity of care regulations (*refer to state specific addendums for CC.PHARM.03A* and CC.PHARM.03B);
- 2. Member is responding positively to therapy;
- 3. If request is for a dose increase, new dose does not exceed health plan's approved quantity limit.

Approval duration: 12 months

B. All Other Indications in Section I (must meet all):

1. Continued therapy for cough, or non-cancer, non-sickle cell or non-palliative care pain will not be authorized as the underlying causes of cough and pain must be treated with appropriate therapy.

C. Other diagnoses/indications: Not applicable

III. Diagnoses/Indications for which coverage is NOT authorized:

A. Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policies – CP.CPA.09 for commercial, HIM.PA.154 for health insurance marketplace, and CP.PMN.53 for Medicaid, or evidence of coverage documents.

IV. Appendices/General Information

Appendix A: Abbreviation/Acronym Key FDA: Food and Drug Administration MAOI: monoamine oxidase inhibitors NSAIDs: non-steroidal anti-inflammatory

drugs

REMS: Risk Evaluation and Mitigation Strategy

Appendix B: Therapeutic Alternatives

This table provides a listing of preferred alternative therapy recommended in the approval criteria. The drugs listed here may not be a formulary agent for all relevant lines of business and may require prior authorization.

Drug Name	Dosing Regimen	Dose Limit/
		Maximum Dose
acetaminophen	Analgesia	75 mg/kg/day not to
(Tylenol®)	Weight-based pediatric dosing	exceed 4 g/day
	10-15 mg/kg/dose PO Q4-6 hr PRN	
	Age 6 to 11 years	
	325 mg PO Q4 – 6 hr PRN	
	Age 12 years or older	
	Immediate-release: 650 mg PO Q4 – 6 hr	
	PRN or 1000 mg PO Q6 hr PRN	
	Extended-release: 1300 mg PO Q8 hr PRN	
carbamazepine	Neuropathic pain*	1,200 mg/day
(Tegretol®)	<u>Initial:</u> 50 – 100 mg PO BID	
	<u>Maintenance:</u> 100 – 200 mg PO Q4 – 6 hr	
cyclobenzaprine	Muscle spasm	30 mg/day
(Fexmid®)	Age 15 years or older	
	5 – 10 mg PO TID	
duloxetine	Chronic musculoskeletal pain	60 mg/day
(Cymbalta®)	30 mg PO QD for 1 week, then 60 mg PO QD	
gabapentin	Neuropathic pain*	3,600 mg/day
(Neurontin®)	1,200 – 3,600 mg/day PO in 3 divided doses	
ibuprofen (Advil®,	Analgesia	40 mg/kg/day not to
Motrin [®])	Age 6 months to less than 12 years	exceed 2,400
	4 – 10 mg/kg/dose PO Q6 – 8 hr PRN	mg/day
	Age 12 to 17 years	
1	400 mg PO Q4 – 6 hr PRN	27/4
oxycodone	Moderate-to-severe pain (immediate-release	N/A
(Roxicodone [®] ,	tablets)	
OxyContin [®])	0.1 – 0.2 mg/kg/dose (moderate pain) or 0.2	
	mg/kg/dose (severe pain) PO	
	Savara nain (avtanded release tablets)	
	Severe pain (extended-release tablets) Age 11 months or older	
	Initial dose PO based on conversion from	
	current opioid regimen dose	
morphine sulfate	Acute pain	N/A
immediate-release	Age 6 months or younger	11/12
IIIIIIcalaic-Icicasc	0.08 – 0.1 mg/kg/dose PO Q3 – 4 hr	
	0.00 0.1 mg/kg/d030 1 0 Q3 = 4 m	

Drug Name	Dosing Regimen	Dose Limit/
		Maximum Dose
	Age greater than 6 months	
	Weight $\leq 50 \text{ kg}$: $0.2 - 0.5 \text{ mg/kg/dose PO Q3}$	
	− 4 hr PRN	
	Weight $\geq 50 \text{ kg}$: $15 - 20 \text{ mg/kg PO Q3} - 4 \text{ hr}$	
	PRN	
dextromethorphan	Cough (suppressant)	Age 4 to 6 years: 30
(Delsym [®] ,	Age 4 to 6 years (syrup)	mg/day
Robitussin®)	Immediate-release: 2.5 – 7.5 mg PO Q4 – 8 hr	
(Noortussiii)	PRN	Age 6 to 12 years:
	Extended-release: 15 mg PO BID PRN	60 mg/day
	Age 6 to less than 12 years	Age \geq 12 years: 120
	Immediate-release: 5 – 10 mg PO Q4 hr PRN	mg/day
	or 15 mg PO Q6 – 8 hr PRN	mg/day
	Extended-release: 30 mg PO BID PRN	
	Age 12 years or older	
	Immediate-release: 10 – 20 mg PO Q4 hr	
	PRN or 20 – 30 mg PO Q6 – 8 hr PRN	
quaifanagin		A and 2 to 2 6 years
guaifenesin	Cough (expectorant)	Age 2 to $<$ 6 years:
(Mucinex [®])	Age 2 to less than 4 years	600 mg/day
	Liquid: 50 – 100 mg PO Q4 hr PRN	
		Age 6 to $<$ 12 years:
	Age 4 to less than 6 years	1,200 mg/day
	50 – 100 mg PO Q4 hr PRN	
		Age \geq 12 years:
	Age 6 to less than 12 years	2,400 mg/day
	100 – 200 mg PO Q4 hr PRN	, ,
	Age 12 years or older	
	200 - 400 mg PO Q4 hr PRN	
benzonatate	Cough	600 mg/day
(Tessalon Perles®)	Age greater than 10 years	
	100 - 200 mg PO TID PRN	
albuterol nebulizer	Bronchospasm	Varies
	Age 2 to less than 12 years	
	Weight 10 – 15 kg: 0.63 – 1.25 mg PO TID or	
	QID PRN	
	Weight > 15 kg: 0.63 – 2.5 mg PO TID or	
	QID PRN	
	Am IIII.	
	Age 12 years or older	
	2.5 mg PO TID or QID PRN	

Drug Name	Dosing Regimen	Dose Limit/
S		Maximum Dose
albuterol metered	Bronchospasm	Varies
dose inhaler	2 inhalations Q4 – 6 hr PRN	
(ProAir®,		
Proventil®,		
Ventolin®)		150 /1
diphenhydramine	Cough	150 mg/day
(Benadryl®)	Age 12 years or older	
avv ma atazalina	25 mg PO Q4 hr PRN	May 2 days usa
oxymetazoline (Afrin® Nasal	Nasal congestion Age 6 years or older	Max 3 days use
Spray)	$2-3$ sprays in each nostril BID for ≤ 3 days	
phenylephrine	Nasal congestion	Max 3 days use
(Afrin® Childrens)	Age 2 to less than 6 years	Wax 5 days use
(rim chiarens)	0.125% solution: 2 – 3 sprays in each nostril	
	for no more than Q4 hrs for ≤ 3 days	
	Age 6 to less than 12 years	
	0.25% solution: $2-3$ sprays in each nostril	
	for no more than Q4 hrs for ≤ 3 days	
	Age 12 years or greater	
	0.25% to 1% solution: 2 – 3 sprays in each	
1 1 1 1	nostril for no more than Q4 hrs for ≤ 3 days	A 44
phenylephrine	Nasal congestion	Age 4 to $<$ 6 years:
(Sudafed PE® Childrens)	Age 4 to less than 6 years 2.5 mg PO Q4 hr PRN for \leq 7 days	15 mg/day
Cilitatens)	2.3 lilg FO Q4 lil FKN 101 ≤ / days	Age 6 to < 12 years:
	Age 6 to less than 12 years	30 mg/day
	$\frac{1120 \text{ to 1655 than 12 years}}{5 \text{ mg PO Q4 hr PRN for } \leq 7 \text{ days}}$	30 mg/day
		Age \geq 12 years: 60
	Age 12 years or greater	mg/day
	$10 \text{ mg PO Q4 hr PRN for } \le 7 \text{ days}$	
Qvar®	Asthma	Age 5 to 11 years:
(beclomethasone)	Age 5 to 11 years	80 mcg BID/day
	40 – 80 mcg inhaled BID	
		Age \geq 12 years: 320
	Age 12 years or greater	mcg BID/day
	40 – 320 mcg inhaled BID	

Therapeutic alternatives are listed as Brand name® (generic) when the drug is available by brand name only and generic (Brand name®) when the drug is available by both brand and generic.
*Off-label

Appendix C: Contraindications/Boxed Warnings

- Contraindication(s): use in children younger than 12 years of age; postoperative management in children younger than 18 years of age following tonsillectomy and/or adenoidectomy; significant respiratory depression; acute or severe bronchial asthma in an unmonitored setting or in absence of resuscitative equipment; concurrent use of monoamine oxidase inhibitors (MAOIs) or use of MAOIs within the last 14 days; known or suspected gastrointestinal obstruction, including paralytic ileus; hypersensitivity to the active ingredient.
- Boxed warning(s): risks of misuse, abuse, addiction, overdose, death; serious or life-threatening respiratory depression; accidental ingestion; neonatal opioid withdrawal syndrome; concomitant use or discontinuation of cytochrome P450 3A4 inducers, 3A4 inhibitors, or 2D6 inhibitors; concomitant use with benzodiazepines or other central nervous system depressants; Risk Evaluation and Mitigation Strategy (REMS); ultra-rapid metabolism of codeine or tramadol and other risk factors for life-threatening respiratory depression in children.

Appendix D: States with Regulations against Redirections in Cancer

State	Step Therapy Prohibited?	Notes
FL	Yes	For stage 4 metastatic cancer and associated conditions
GA	Yes	For stage 4 metastatic cancer. Redirection does not refer to review of medical necessity or clinical appropriateness
IA	Yes	For standard of care stage 4 cancer drug use, supported by peer-reviewed, evidence-based literature, and approved by FDA
LA	Yes	For stage 4 advanced, metastatic cancer or associated conditions. Exception if "clinically equivalent therapy, contains identical active ingredient(s), and proven to have same efficacy
MS	Yes	*Applies to HIM requests only* For advanced metastatic cancer and associated conditions
NV	Yes	Stage 3 and stage 4 cancer patients for a prescription drug to treat the cancer or any symptom thereof of the covered person
ОН	Yes	*Applies to Commercial and HIM requests only* For stage 4 metastatic cancer and associated conditions
OK	Yes	*Applies to HIM requests only* For advanced metastatic cancer and associated conditions
PA	Yes	For stage 4 advanced, metastatic cancer
TN	Yes	For advanced metastatic cancer and associated conditions
TX	Yes	For stage 4 advanced, metastatic cancer and associated conditions

V. Dosage and Administration

There are various codeine-, tramadol-, and hydrocodone-containing medications commercially available. Please refer to the respective package inserts for dosing and administration.

VI. Product Availability

Please refer to the respective package inserts for product availability.

Reviews, Revisions, and Approvals		P&T
		Approval Date
2Q 2021 annual review: no significant changes; for section III. Diagnoses/Indications for which coverage is NOT authorized, replaced "Not applicable" with template language for that section; references reviewed and updated.	03.01.21	05.21

Reviews, Revisions, and Approvals	Date	P&T Approval Date
2Q 2022 annual review: no significant changes; references reviewed and updated.	02.28.22	05.22
Template changes applied to continued therapy section.	10.03.22	
2Q 2023 annual review: no significant changes; references reviewed and updated.	02.03.23	05.23
2Q 2024 annual review: no significant changes; limitations of use added to FDA approved indications section; references reviewed and updated.	01.18.24	05.24
2Q 2025 annual review: added by-passing of redirection if state regulations do not allow step therapy in certain oncology settings along with Appendix D; references reviewed and updated. Added step therapy bypass for IL HIM per IL HB 5395.	04.08.25	05.25
For IL HIM 5395 bypass, updated language with removal of do not apply to "formulary agents" from statement.	06.29.25	

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. "Health Plan" means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan's affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions, and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment, or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members, and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

Note:

For Medicaid members, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.
