

CHILD-PARENT PSYCHOTHERAPY TRAINING OPPORTUNITY

The Georgia Association of Infant Mental Health: Birth to Five ([GA-AIMH](#)) is offering behavioral health clinicians in Georgia an exciting opportunity to join a cohort of their peers in completing training in [Child-Parent Psychotherapy \(CPP\)](#). CPP is a relationship-based therapy that helps young children and families recover and heal after stressful and traumatic events. The training will be conducted by endorsed CPP trainers. Thanks to the Georgia Department of Public Health and Department of Early Care and Learning, this training will be provided at no cost to clinicians.

You may be eligible to participate in the training if you are:

- A Masters-level behavioral health clinician who is licensed or under the supervision of a participating licensed clinician
- Currently practicing and plan on continuing to practice in Georgia
- In a position where you are able to work directly with children aged 0-5 and their families and access reflective supervision
- Able to commit to an 18-month virtual training experience from August 2022 – March 2024 that can be completed while continuing in your current role

Interested applicants are strongly encouraged to attend an informational session. **Please use one of the following links to register in advance for an informational session on Monday, March 28, 2022 from 4:30-5:30pm or Tuesday, March 29, 2022 from 12:30-1:30pm:**
