2020-2021 Respiratory Syncytial Virus (RSV) Season and Synagis® Criteria

Dear Provider,

Enclosed you will find the Peach State Health Plan Synagis® Authorization Guidelines for the 2020-2021 RSV Season. These guidelines were developed based on the 2014 recommendations of the American Academy of Pediatrics and recently reviewed under the guidance and consultation with key opinion leaders.

Peach State Health Plan will use our preferred provider of Synagis®, AcariaHealth, for this RSV Season. Beginning immediately, all requests for Synagis® should be forwarded to Peach State Health Plan for initial screening to determine if the request meets criteria for coverage. A copy of the enrollment form is enclosed. When submitting the request, please include the NICU discharge summary to expedite the review process.

AcariaHealth will be responsible for the delivery of the injectable product and the overall coordination of the drug distribution process. All injectable products will be billed directly to Peach State Health Plan by AcariaHealth and shipped to your office. Administration charges for the injection should be billed directly to Peach State Health Plan on a (HCFA) CMS 1500 claim form using CPT code 96372 (Administration) and ICD-10 diagnosis code for RSV Immunotherapy administration (Z29.11). You can also bill for an appropriate office visit for each administration of the drug when medically necessary.

AcariaHealth is one of the nation's leading comprehensive specialty pharmacy companies, offering healthcare solutions through a unique brand of specialty pharmacy services.
