Common PDL Updates: NSAID (Non-Steroidal Anti-Inflammatory Drug)

Peach State Health Plan (Peach State) has been working with DCH and the other CMOs in Georgia to move toward a more standard PDL. To that end, we have agreed to make changes to the Non-Steroidal Anti-Inflammatory Drug category so that all four entities cover the same drugs. The medications listed below are the only covered agents on the Common PDL for NSAIDs. These changes will be effective July 1, 2013.
